RESUME

Independent junior web developer knowledgeable with front end and back end with Django, capable of building responsive web pages (mock up to code or not) and setting up web applications with Django and well understanding on the MVC pattern. Experienced in the design of relational databases and Hands on with CSS optimization using Sass. I work well both independent and as part of a team and I'm always looking to expand my knowledge.

WORK EXPERIENCE

Conjunto Residencial Alta Vista Torre A

(July 2020 - December 2020)

Django Developer

Django application for management of the accounting work of the administrative group in charge of preserving the residential building infrastructure. The application made use of a database of every tenant as well of the residents with magnetic keys of the building on top of keeping records of the building's management spending.

PROJECTS

Notas

(August 2021 - August 2021)

<https://github.com/ildebr/notes>

Notas is a notetaking django project. -Designed the page. -Wrote the code using Visual Studio 1.56.2 -Implemented MVC pattern. -Implemented registration of users. -Implemented particular views for logged users like 'my notes' and 'edit' views.

Junji Ito's landing page

<https://ildebr.github.io/Junjilto/>

A small landing page about the mangaka Junji Ito intended to show abilities with html, css (Sass) and javascript (jQuery). -Designed the page. -Wrote the code using Visual Studio 1.56.2 -Implemented movement through arrows and anchor links with smooth movement using jQuery to manipulate the elements depending on the user interaction.

Codewell practice

(September 2021 - September 2021)

<https://ildebr.github.io/codewellprojects/>

Codewell provides assets a designs that can be used to practice html, css and javascript with the main goal of remaking the designs with assets provided. In this site I show the codewell's project I've finished.
