Ildebrando Quinchoa

Ildebrando26

I'm an experienced FrontEnd Developer with ability to adapt to in both self-starting and collaborative enviroments. On the BackEnd side I've got experience with Django building wbsites and REST APIs, PHP, the CMV pattern and Database Design. Open to any position where my skills are best fit but with interest in an asynchronous position that allows me to continue the last semesters of my computer science education.
